Voiceover script — Kyntlo motion posts

Timecodes are where each line **starts**, cut to the length the line takes to say at an unhurried pace. Record against the guide track in `vo/<video>—vo.m4a`, or ignore it and read naturally — the picture was cut to these lengths, so a natural read will fit.

Tokens in braces are the Day 0 figures. The guide audio speaks placeholder numbers so the pacing is realistic; say the real ones.

tiktok-a-spreadsheet

#	IN	OUT	LINE	SPOKEN
1	0.00s	5.31s	Last Tuesday I filled in {N_TIMED} Dubai businesses' contact forms.	4.41s
2	5.31s	8.50s	Every one of them is running ads right now.	2.29s
3	8.50s	13.37s	Column two is when I submitted. Column three is when they replied.	3.97s
4	13.37s	16.44s	{N_NEVER_REPLIED} of them are still blank.	2.17s
5	16.44s	19.95s	Every one paid for the click that sent me there.	2.61s
6	19.95s	25.34s	It isn't a slow team. It's eleven at night, and Friday, and lunch.	4.49s
7	25.34s	28.81s	I'll run the same test on yours. Free.	2.57s
8	28.81s	32.56s	You keep the timestamps either way.	2.85s

#	IN	OUT	LINE	SPOKEN
1	0.00s	4.67s	Eleven oh four at night. The lead arrives.	3.77s
2	4.67s	7.42s	The office is closed.	1.85s
3	7.42s	12.57s	Nine twelve the next morning. Somebody replies.	4.25s
4	12.57s	15.00s	Ten hours later.	1.53s
5	15.00s	18.99s	The same enquiry went to three other companies.	3.09s
6	18.99s	22.82s	One of them answered at eleven oh six.	2.93s
7	22.82s	27.17s	Your ads run at eleven at night. Your team doesn't.	3.45s
8	27.17s	31.84s	We close that gap in fourteen days. Start with the free report.	3.77s
