Voiceover script — Kyntlo motion posts

Timecodes are where each line **starts**, cut to the length the line takes to say at an unhurried pace. Record against the guide track in `vo/<video>—vo.m4a`, or ignore it and read naturally — the picture was cut to these lengths, so a natural read will fit.

Tokens in braces are the Day 0 figures. The guide audio speaks placeholder numbers so the pacing is realistic; say the real ones.

#	IN	OUT	LINE	SPOKEN
1	0.00s	5.43s	I opened the websites of sixty two Dubai clinics that were running ads that week.	4.53s
2	5.43s	9.58s	Not to sell them anything. Just to see how you book.	3.25s
3	9.58s	13.93s	Column two is what the Book Now button actually does.	3.45s
4	13.93s	17.96s	Thirty five of them: a form, not a calendar.	3.13s
5	17.96s	22.03s	Eighteen have no booking mechanism at all.	3.17s
6	22.03s	26.98s	Eight have a real calendar. None of them connected to anything.	4.05s
7	26.98s	31.17s	Every one of the sixty two was paying for clicks that week.	3.29s
8	31.17s	35.52s	I'll check yours. Free, in twenty four hours.	3.45s
